

Teachers: Use this simple activity to help students practice locating places using degrees of latitude and longitude on a map. For younger students, you can use this approach to create a similar worksheet after adding a grid using numbers and letters across the top and side of the map.

Answer key: 1. Sweden 2 France 3 Croatia 4 Poland 5 Germany 6 Russia 7 Spain 8 Ukraine 9 Iceland 10 Czech Republic

(Cut worksheet below and copy)

Name: _____

Lines of Longitude and Latitude

For each set of coordinates below, use the map to find which country is located there. Write its name on the blank.

1. 60° N Latitude and 15° E Longitude? _____

2. 45° N Latitude, 0° Longitude? _____

3. 45° N Latitude, 15° E Longitude? _____

4. 50° N Latitude, 20° E Longitude? _____

5. 50° N Latitude, 10° E Longitude? _____

6. 60° N Latitude, 40° E Longitude? _____

7. 40° N Latitude, 5° E Longitude? _____

8. 50° N Latitude, 30° E Longitude? _____

9. 65° N Latitude, 20° E Longitude? _____

10. 50° N Latitude, 15° E Longitude? _____
