SPRING 2020

National Geographic Partners LLC (NGP), a joint venture between The Walt Disney Company and the National Geographic Society, is committed to bringing the world premium science, adventure and exploration content across an unrivaled portfolio of media assets. NGP combines the global National Geographic television channels (National Geographic Channel, Nat Geo WILD, Nat Geo MUNDO, Nat Geo PEOPLE) with National Geographic's media and consumer-oriented assets, including National Geographic magazines; National Geographic studios; related digital and social media platforms; books; maps; children's media; and ancillary activities that include travel, global experiences and events, archival sales, licensing and e-commerce businesses. Furthering knowledge and understanding of our world has been the core purpose of National Geographic for 131 years, and now we are committed to going deeper, pushing boundaries, going further for our consumers ... and reaching millions of people around the world in 172 countries and 43 languages every month as we do it. NGP returns 27 percent of our proceeds to the nonprofit National Geographic Society to fund work in the areas of science, exploration, conservation and education.

Dear Readers,

I am very pleased to present our Spring 2020 list! As always, National Geographic Kids Books is on a mission to keep kids aware of and involved with the important issues of our day, such as the environmental impact of single-use plastic. This season, two key titles showcase our Kids vs. Plastic initiative. *The National Geographic Kids Almanac 2021*, entering its second decade and still our best-selling title of all time, features new content on how readers can tackle the plastic problem in their own communities and be a part of the pollution solution. And when it comes to appreciating and protecting our planet, there's no better role model than ocean champion and National Geographic Explorer Sylvia Earle, author of our new book *Extreme Ocean*. Follow along as Earle dives headfirst into our planet's biggest natural resource, revealing the amazing diversity of animals and plant life that inhabit it.

Fact-based fiction series are going strong in our Under the Stars imprint as the fourth book in the Explorer Academy franchise launches this season with *The Star Dunes*. Featuring thrilling story lines that get kids excited about science, technology, culture, and code breaking, the action is getting more intense than ever. Join your favorite characters—Cruz, Lani, Sailor, Emmett, and Bryndis—to see if they can stay one step ahead of Nebula and find the next piece of the hidden cipher. In October we introduced you to a new (and zanier) cast of characters in *Zeus the Mighty: The Quest for the Golden Fleas*. This season, jump right back into the action as Zeus and his gang of misfit gods enter the underground lair of Hades and encounter their most dangerous foe yet (the furnace) in *The Maze of the Menacing Minotaur*.

What do you get when you combine a blockbuster book series with one of the most captivating kids' topics? *Weird But True! Dinosaurs*, of course! It's certain to be a hit with Jurassic junkies and dino devotees everywhere.

National Geographic Kids enters a whole new arena this season with the launch of *It's a Numbers Game! Basketball*. Just in time for playoff season, we're teaming up with ESPN and former NBA superstar Kobe Bryant to bring you the stats and facts behind your favorite game in this new math-infused sports series. Combining the best of both worlds, this layered approach to fun learning is sure to score points with any sports fan!

And finally, we have the perfect book for all those harried parents who are starting to plan their spring break and summer family road trips—and anticipating the dreaded "Are we there yet?" question. The second edition of the best-selling *Ultimate U.S. Road Trip Atlas* will entertain car-crazed kiddos with fun and fact-packed ideas for places to visit, along with games and activities.

As always, thank you for supporting National Geographic's mission and our belief in the power of storytelling to change the world. May these books inspire your family to get out and explore!

EXPLORER ACADEMY

The Star Dunes

By Trudi Trueitt

Cruz, Sailor, Emmett, and the gang are on their way to Africa when Nebula misses their intended target and someone close to Cruz ends up on the brink of death. Secrets creep out from the shadows and leave Cruz with more questions than answers in this fourth title in the hit series.

A major discovery forces the Explorer Academy into the limelight in *The Star Dunes*, but Cruz has much more on his mind than 15 minutes of fame. A new face on board the ship brings Cruz's worlds colliding, just as a major close call tears them apart. En route to Africa, Team Cousteau is now down a major player, and Cruz can't help but be preoccupied by the hole in his life. The discovery of his mom's next clue leads him to the most exotic location yet—a vast desert—with no other information to lead the way, while an unlikely ally helps Cruz pursue another piece of the puzzle. Just as things seem like they might turn out alright, Dr. Fanchon Quills has a technological breakthrough that gives Cruz a glimpse into the past and reveals more about his future than he may really want to know.

ZEUS THE MIGHTY

The Maze of the Menacing Minotaur

By Crispin Boyer

Zeus the Mighty and the gods of Mount Olympus Pet Center don't back down from any mythological challenge. After all, they reclaimed the golden fleece and defeated a fearsome dragon! Now, they must brave a mysterious maze under their feet... said to be home to a menacing monster.

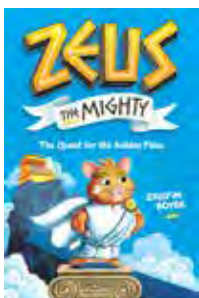

But even a maze monster won't stop our heroes, and adventure awaits! Zeus the hamster, Athena the cat, Demeter the cricket, Poseidon the pufferfish, and Ares the pug are gods—that means they're practically invincible! That is, they think they are—until things take a turn for the worse. Deep in the labyrinth, the pets discover something terrible, ancient, and big—much bigger than a hamster. Soon, all who live on Mount Olympus are in danger. Can Zeus the Mighty save the day?

Discover a world of gods, goddesses, and hilarious hamsters in this rollicking romp through Greek mythology in the second book of this epic adventure series.

IT'S A NUMBERS GAME! BASKETBALL

The math behind the perfect bounce pass, the buzzer-beating bank shot, and so much more!

By James Buckley, Jr., with a foreword by Kobe Bryant

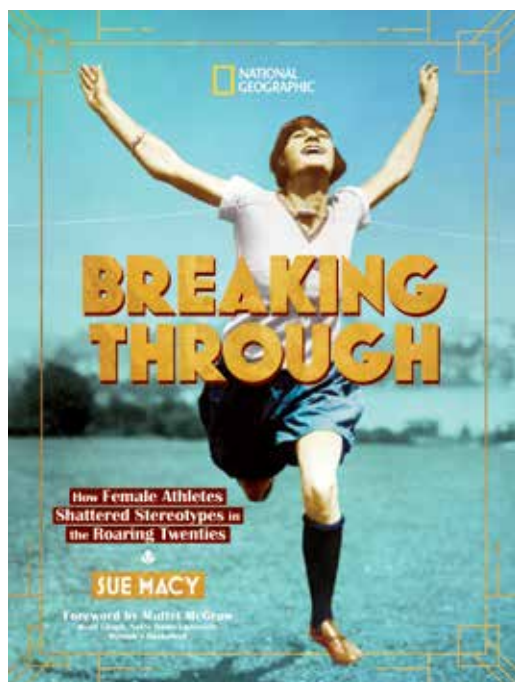

Why do NBA players only have 24 seconds to score a basket? What's the geometry behind making the perfect shot? Become a basketball pro and learn all about the numbers and math behind this popular sport.

Numbers are everywhere in basketball—from the dimensions of the court to the points you can score to the digits on each player's jersey. In this awesome new book, you'll learn how these numbers make basketball the game we know and love today, and also get a few tips along the way on how to improve your game. Read about amazing statistics and learn how to track the stats of your favorite basketball stars. Discover how to improve your bounce pass and chest pass with geometry and physics. Colorful graphics explain the math behind the sport, and cool photos make you feel like you're right on the court. Filled with sports trivia and fun activities at the end of every chapter, this book is sure to be a slam dunk for kids who can't get enough of the game and want to learn more.

BREAKING THROUGH

How Female Athletes Shattered Stereotypes in the Roaring Twenties
By Sue Macy

Award-winning author Sue Macy offers a fresh and timely account of women in sports in the 1920s, and how their determination, talent, and defiance in the face of criticism promoted women's rights, redefined femininity, and changed the course of history.

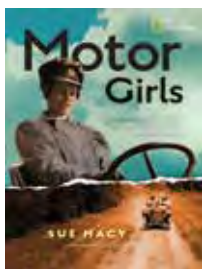

Macy offers a rare and fascinating glimpse into the journey of women's rights through the lens of women in sports during the pivotal decade of the 1920s. With elegant prose, poignant wit, and fascinating primary sources, Macy explores the many hurdles presented to female athletes as they stormed the field, stepped up to bat, and won the right to compete in sports. Featuring bold and talented heroines, this book documents how the social issues and morals of the decade—from politics to segregation to the media—helped shape the changing narratives around women and alter the course of history entirely. It is a fascinating window into a rich and seldom-explored history, and also a topical reminder of the many discussions surrounding femininity and the role of women that continue today.

BEASTLY BIONICS

Rad Robots, Brilliant Biomimicry, and Incredible Inventions Inspired by Nature

By Jennifer Swanson

Discover how the natural world inspires innovation in science and technology to create the latest and greatest breakthroughs and discoveries in this exciting book.

Did you know that scientists have developed a bionic tool shaped like an elephant's trunk that helps lift heavy objects? Or that the needle-like pointed beak of the kingfisher bird encouraged engineers in Japan to change the design of the Shinkansen "bullet trains" to reduce noise? Across multiple fields of study and methods of problem-solving, scientists are turning to biomimicry, or engineering inspired by biology or nature, to make all kinds of cool technological advancements. From robots that protect people and gather information to everyday inventions, like reflectors on the roads and ice-proof coatings for airplanes, to new sources of renewable energy, this book dives into the ways that nature can give us ideas on how to improve our world. Discover more than 40 examples of technology influenced by animals, learn about some of the incredible creatures that have inspired multiple creations, and meet some of the scientists and the stories behind their inventions.

ICK!

Delightfully Disgusting Animal Dinners, Dwellings, and Defenses
By Melissa Stewart

Animals—they're cute and fluffy, cuddly and puffy, and ... sometimes downright disgusting. Get ready to be totally grossed out as you discover the incredibly icky ways animals eat, make their homes, and defend themselves.

From award-winning author Melissa Stewart comes the *grossest* journey through the animal world you'll ever take. From ants to zebras, get ready to discover some seriously strange animal behaviors. Slurp up soupy insides with houseflies, spit sticky saliva to build nests with birds, and fend off predators with poop-flinging caterpillars and farting snakes. And that's just the tip of the dung pile! These yucky habits may seem surprising to us, but they're totally normal for these animals. In fact, their survival depends on them.

Snappy text, incredible photography, and more cool features add to the learning fun. Ready to chew some fingernails with cockroaches? Dive into the disgusting world of animals!

PET RECORDS

By Julie Beer and Michelle Harris

Pets are more than just our animal besties. They're totally extreme! From the largest to the smallest, the biggest brainiacs to the most awesome athletes, discover the amazing talents of all kinds of animals, including dogs, cats, bunnies, horses, reptiles, fish, insects, and more. Some were just born this way. Others have worked hard to develop their skills. Plus, you'll dive into the details behind the records, see how different pets match up, and encounter some of the world's wackiest pet places. With eye-popping design, unforgettable photographs, and amazing stats, this book is sure to become the leader of the pack on every kid's bookshelf!

STICKER ACTIVITY BOOK SERIES

Kids will love these fun-packed pages loaded with colorful scenes and 1,000 stickers of all shapes, sizes, and colors in a unique blend of photographs and artwork. Interactive games, mazes, drawing prompts, spelling and pattern activities, and more will keep kids entertained, engaged, and learning.

ROCKS AND MINERALS STICKER ACTIVITY BOOK

Treasure hunters and fans of gems, jewels, and rocks will love this jam-packed sticker activity book, complete with activities, coloring, mazes, and more—plus 1,000 stickers!

Roll up your sleeves and prepare to get your hands dirty, because it's time to dig around, pan for gold, and crack open geodes in this exciting sticker activity book. Discover the difference between rocks and minerals and how gems are cut and polished. Learn how people have used rocks and minerals, like precious metals and gems, for jewelry and decoration for centuries. Get up close to famous features like Mount Rushmore or the Taj Mahal. Kids will sticker and get to know the names of their favorite rocks, as they travel around the world to beautiful natural sites like Giant's Causeway in Ireland and Uluru in Australia.

NATIONAL GEOGRAPHIC KIDS LEVELED READERS

This high-interest series of beginning readers, developed in consultation with early education experts, pairs magnificent National Geographic photographs with lively text by skilled children's book authors. Written to maximize interest, reading success, and the value of nonfiction, each book is clearly marked from Pre-Reader to Level 3 with brief explanations of skill levels on the back.

LEVELS

PRE-READER Ready to read: high-interest topics and content vocabulary for kids who are ready to read.

LEVEL 1 Starting to read: decodable texts for kids who are beginning to read on their own.

CO-READER LEVEL 1
A perfect shared reading experience between kids who are beginning to read on their own and an older reader or parent.

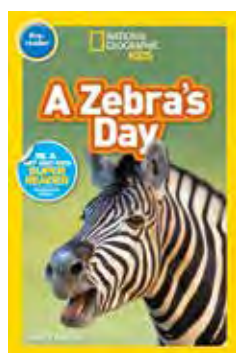

LEVEL 2 Reading independently: approachable texts for kids who are ready for longer sentences and more complex vocabulary. New words are defined on the page, but occasional adult help might be welcome.

LEVEL 3 Fluent reader: robust yet accessible texts for kids who are reading on their own with ease and are ready for more challenging vocabulary and varied sentence structure.

FACT READER LEVEL 3
Combines short, digestible knowledge nuggets with informative, sustained reading for fluent readers, plus 100 fun facts.

AUTHOR APPEARANCES

Author appearance hosts are encouraged to work with their local retail booksellers or wholesalers to purchase autographing copies.

SCHOOLS & LIBRARIES

Librarians and other educators can request our latest catalog for School & Public Libraries by calling 1-877-873-6846.

National Geographic Books are also available through your regular wholesaler.

Catalog entries list the suggested cover price. The suggested cover price will be printed on the jackets of the books listed in this catalog. Booksellers and wholesalers will purchase books from Penguin Random House, Inc. at the suggested catalog retail price less their earned discounts. All resellers are free to charge any prices they choose for books. All trim sizes, page counts, months of publication, and publisher's suggested catalog retail and cover prices shown in this catalog should be considered tentative and subject to change without notice. Orders are subject to acceptance and availability.
